AUCEAN

the all-in-one music and lighting system.

Smart Sync

AUCEAN is the first high-quality, integrated LED light and speaker system, and it features Bluetooth connectivity to maximize your onboard experience. Pair the system with your smartphone, tablet, or any other Bluetooth enabled device, and you'll be enjoying your favorite playlist in a matter of seconds.

Effortless Control

From sound volume to lighting intensity, control is at your fingertips. AUCEAN's vivid LED features smooth dimming control, and its sound system has a powerful built-in amplifier that can deliver everything from delicate strings to pulsing bass. Amp up the audio, illuminate the ocean, and enjoy the waves, all without having to lift a finger.

Three Jobs, One AUCEAN

AUCEAN is speaker, amplifier, and lighting all in one. Its stereo system is designed specifically for crisp, clear music at all volumes, and its LED is energy-efficient with undiminished power. AUCEAN can weather sun, rain, water, wind, and fog, and will be the perfect companion on your every ocean outing.
